

Tax Enquiry Protection Service

Support, care and protection for our clients through our Tax Enquiry Protection Service

With a budget deficit of over £355 billion, we fully expect HMRC to raise more enquiries this year to increase tax revenue and plug the hole left in the Government's finances by the economic damage caused by COVID-19. For those who have relied on a COVID-19 support scheme such as the CJRS (furlough scheme) and the SEISS (self-employed scheme), it is likely that HMRC will be looking a lot more closely at tax returns, payments and compliance histories. Tax and VAT repayments will also be checked more rigorously alongside the usual full tax investigations.

With this in mind, we strongly recommend that you continue to subscribe, giving us the opportunity to support and protect you throughout the process of a tax investigation should you be a target of HMRC.

A quick reminder of the benefits:

We will deal with your enquiry, on your behalf, using our experience of your affairs, to help resolve matters as quickly as possible.

The service covers our professional fees up to £100,000 on the majority of all enquiries, with no excess to pay, including full enquiries; aspect enquiries; VAT and employer compliance disputes and reviews; IR35 status checks and disputes; and business inspection notices.

Free unlimited access to employment, health and safety, and business legal support advice; potentially saving you hundreds of pounds in fees for professional advice.

Please find enclosed your annual renewal for continued peace of mind against the costs associated with an HMRC investigation. To make sure your subscription continues seamlessly, please complete and return the enclosed remittance advice by **31 January 2022**.

What next?

To continue enjoying peace of mind, simply return the enclosed remittance advice with your payment. Remember that you can access the free helpline throughout the year as part of your subscription.

If you have any queries please contact Jo Bateman on 01603 937904.
